

VIRTUAL CRICK BOAT SHOW

RATE CARD

The Virtual Boat Show is a 5-day online event which will take place from 24th – 28th February 2021. The event will draw together the boating community, boating enthusiasts, the inland waterways industry and all those who enjoy our waterways in a way that has never been seen before.

The event will employ a curated mix of static content, video, presentations and radio, whilst facilitating engagement between visitors and exhibitors and the event itself through competitions, radio dedications and interviews, message boards, 1-2-1 chats with exhibitors and live video broadcasts.

As well as drawing on our audience of Waterways World readers and Crick Boat Show visitors this new format will also extend the geographic reach to those who cannot make the dates or location of the usual live show. It will appeal to those who during the

Covid-19 pandemic have discovered and enjoyed the UK waterways' scene, and loyal show visitors and magazine readers who have continued to support us through this period.

We will be signposting visitors to a variety of content available during the show, including that supplied by exhibitors. We encourage you to share your latest news from 2020 with us and all that you are hoping to achieve in 2021 so that we can promote this with our virtual show audience.

This is your opportunity to highlight your company and stand out. We are on hand to support you in navigating this new and exciting format.
